This document is subject to updating so we advise you to return to the ut4m.fr website to check the date of issue (on the cover).

Welcome to Grenoble

10 years is not a long time. But it represents so much human investment to achieve it! It took convincing to be born, learning and working hard, sometimes fighting against the elements, viruses...

Let's not be afraid of words, we are proud of the work accomplished, especially since it was done by volunteers who wear many hats!

Proud, yes. But not finished!

We still have progress to make, together, organisers and runners, to go further and make the Ut4M an exemplary environmentally responsible trail!

So yes, this requires some efforts. Favouring public transport, respecting protected areas (you're doing it right!), being more precise in sorting waste...

It's time to get ready. For you, it's a question of eating kilometres, for us of doing everything possible to welcome you in the best conditions.

We are happy to see you again. We can't wait to share these explosions of emotions: happiness, frustration, relief, rage...

There is no doubt that the magic will work, that's what Ut4M is all about!

Sportively

The Ut4M team

Presentation of the events

174,4 km for 12,280 m of ascent and descent
4 massifs crossed: Vercors, Taillefer, Belledonne and Chartreuse

The Ut4M160 uses long-distance paths but also more technical trails, with more technical trails, with passages at altitudes of 2400 metres. The route passes through the 4 life bases: Vif, Rioupéroux, Saint-Nazaire-les-Eymes and Grenoble.

Two ways to participate: solo in one go (160 Xtrem) or over four days (160 Challenge)

- **Ut4M 160 Xtrem**

Start on Friday 22 July at 3pm from Seyssins.

- **Ut4M 160 Challenge**

Start of the first stage on Thursday 21 July at 8 am from Seyssins.

97,9 km for 6,420 m of ascent and descent
2 massifs crossed: Belledonne and Chartreuse
Solo

- Departure on Saturday 23 July at 7 am from Saint-Martin-d'Uriage.

- The Ut4M 100 Master starts from Uriage, to climb to the Arselle plateau. It then follows the same route as the Ut4M160. The route passes through 2 life bases: Saint-Nazaire-les-Eymes and Grenoble.

77.9 km for 6,395 m of ascent and descent
4 massifs crossed: Vercors, Taillefer, Belledonne and Chartreuse
Solo

- Departure of the first stage on Thursday 21 July at 9 am from Seyssins.

* Les horaires sont susceptibles d'être modifiés.

Nous vous tiendrons informés par mail via nos réseaux sociaux.

Presentation of the events (continued)

42 km for 2700 to 3400 m of ascent

1 massif to choose from: Vercors, Oisans, Belledonne or Chartreuse Solo

The Ut4M 40 Series follows the same sections as the Ut4M 160.

- **Ut4M 40 Vercors**

38.2 km, 2830 m of ascent +, departure Thursday 21 July at 8 am from Seyssins,

- **Ut4M 40 Taillefer**

49.6 km, 3580 m ascent +, departure Friday 22 July at 8 am from Vif,

- **Ut4M 40 Belledonne**

48.2 km, 3160 m of ascent +, departure on Saturday 23 July at 8 am, from Rioupéroux.

- **Ut4M 40 Chartreuse**

41.2 km, 2850 m of ascent +, departure Sunday 24 July at 7 am, from Saint-Nazaire-les-Eymes.

20 km for 600 to 1900 m of ascent + approximately

1 massif to choose from: Vercors, Taillefer, Belledonne or Chartreuse Solo

The Ut4M 20 Series follows the same sections as the Ut4M 80.

- **Ut4M 20 Vercors**

18.9 km, 1810 m ascent +, departure Thursday 21 July at 9 am, from Seyssins,

- **Ut4M 20 Taillefer**

22 km, 1810 m ascent +, departure Friday 22 July at 8 am, from Laffrey,

- **Ut4M 20 Belledonne**

20.3 km, 2040 m of ascent +, departure on Saturday 23 July at 10 am, from Uriage,

- **Ut4M 20 Chartreuse**

16.7 km, 735 m of ascent +, departure Sunday 24 July at 00 h, from Le Sappey en Chartreuse

* Les horaires sont susceptibles d'être modifiés.

Nous vous tiendrons informés par mail via nos réseaux sociaux.

Safety and marking

SAFETY, A PRIORITY AND A COMMITMENT

The safety of runners, accompanying persons and volunteers has always been our priority. This aspect of the organisation, which is not often put forward, is nevertheless crucial to avoid

tragedies or injuries. This is why the organisation works on this subject all year round.

All along the route, you will find safety posts and safety contact points, refreshment posts and also three life bases.

30 mountain professionals complete the Ut4M organisation to ensure the safety of the route and 40 health professionals make up the safety team. And as the weather changes and

evolves rapidly in the mountains, 8 fallback routes are planned along the course to ensure your safety during the events.

MARKINGS

It is made up of «milestones» and, where we feel there is a high risk of being out of position, biodegradable paint and reflective paint. The «milestones» consist of two ribbons, one fluorescent orange marked Ut4M, the other fluorescent yellow with a vertical reflective strip. They can be hung on vegetation or on bamboo poles.

RESCUE PROCEDURE

If you are a victim of an accident or witness to an accident:

1 - Contact the emergency services (safety centre) on the number provided during the briefing

- Or go to the nearest volunteer point (feed station, checkpoint...)
- Or ask another runner to call for help

2 - Report your position

- By telephone: last checkpoint, last feed station, etc.
- By whistle if necessary

3 - Change your clothes if possible, cover up

Use your survival blanket if necessary:

high heat = silver side out, intense cold = gold side out

The mountain rescue number is 112.

General program

The arrival times of the first riders are estimated.

STAGE 4

Respect for our natural heritage

Every year, Ut4M works to improve measures to limit the impact of the races on the environment. Trail running takes place in the middle of nature, in contact with exceptional fauna, flora and landscapes.

This environment is fragile, each trailer must respect it and participate in its preservation. We count on you to adopt a responsible attitude and to share it with those who accompany you.

During your reconnaissance along the entire route, take the time to get information:

- camping is regulated by each commune
- motor vehicles are not allowed to circulate outside roads open to traffic
- dogs must not roam freely
- herds are present from June onwards, please respect the instructions when crossing and adopt a good behaviour (do not shout, do not wave your sticks...)
- the environments you cross are sensitive, please stay on the paths. Do not use shortcuts, especially on the paths that are most susceptible to gullying in wet weather. Specific signs are put up in the sectors considered most sensitive.

The routes cross or pass close to natural areas with a special vocation: a nature reserve (the Lac Luitel peat bog), 2 Natura 2000 sites («Cembraie, lawns, lakes and peat bogs of Belledonne, from Chamrousse to Grand Colon», and «Wetlands of the Hurtières Range»), an APPB, a sensitive natural area («Tourbière de l'Arselle») and a Natura 2000 site («Moors, peat bogs and rocky habitats of the Taillefer massif»).

Notice to accompanying persons: it is requested that they do not park in sensitive areas such as the wetlands, especially on the Arselle plateau (off-trail), the climb to Lake Achard (off-trail) and the Pra plateau (off-trail).

DES MINÉRAUX AVANT, PENDANT ET APRÈS L'EFFORT

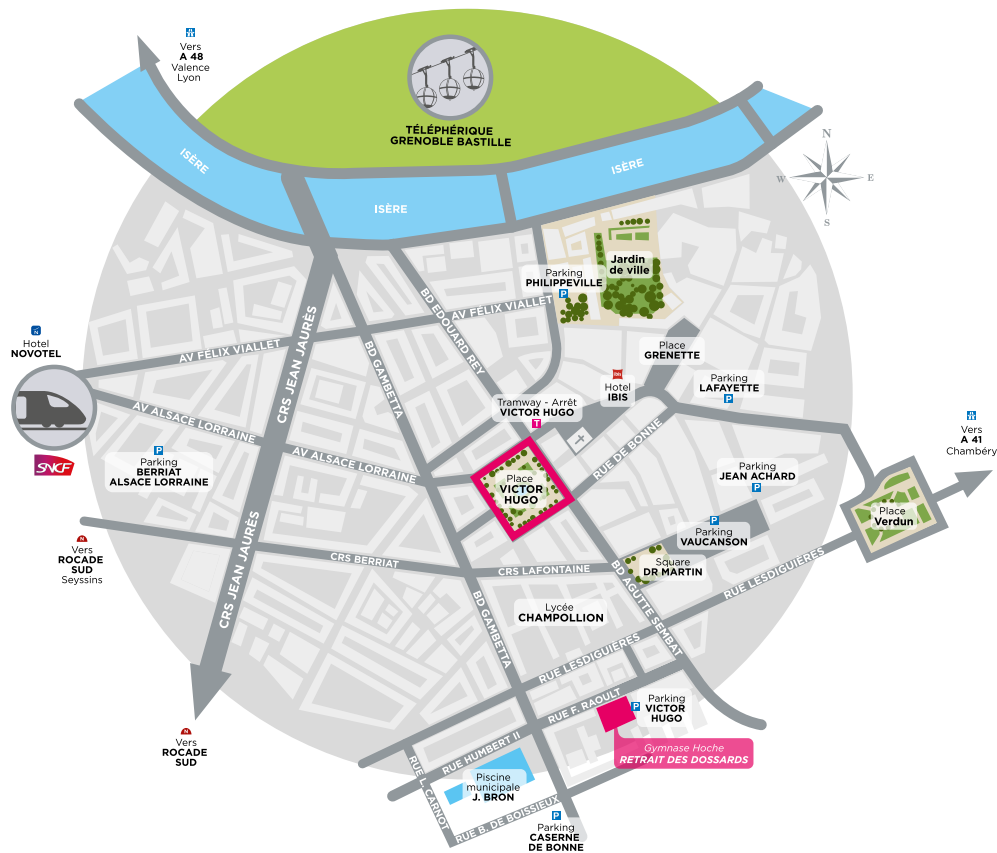

C'est parce qu'elle apporte naturellement des minéraux, du sodium et des bicarbonates que St-Yorre est l'eau choisie par les trailers pour s'hydrater.
